

PUBLIC INFORMATION PROGRAM

The Board of Education will maintain a continuing public information program, in order to promote widespread understanding of the school program, and to gain the support and participation of the community in the school system.

A major component of the public information program will include written communications to the residents of the district on a regular basis. Therefore, the Public Information Director shall be responsible for the development of a school district newsletter to be mailed to district residents on a periodic basis during the school year. In addition, the Public Information Director will be responsible for maintaining the district's website.

Cross-ref: 1900, Parental Involvement

Adoption date: June 19, 2002
